

a: technical assembly required

Design and build Equipment that retrieves Parts and delivers Products. Assemble Products from team-provided Parts to fill Orders, and use the Products in your team's Presentation. Earn extra points by deciding how best to fill Orders with no Parts or Products left over in the Assembly Area. Present a team-created story about something that happens just in time.

AMERESCO

b: scientific the solar stage

Create and present a theatrical performance that tells a Story about the use of solar energy. Integrate research about past and/or current uses of solar energy. Design and create a Solar Energy Prototype that demonstrates a new way to collect, capture and use solar energy. Design and provide Theatrical Lighting to illuminate the Presentation and to create special theatrical effects.

[the solar stage / challenge B / scientific](#)

c: fine arts coming attractions

Present a Movie Trailer involving characters from at least two Nations. Design a Cinematic Special Effect and feature it in the Movie Trailer. Create an Original Soundtrack that complements the Movie Trailer.

[coming attractions / challenge C / fine arts](#)

d: improvisational news to me

Learn about different types of News Stories. Learn about Cause-and-Effect relationships. Use Cooperative Human Scenery and Props to enhance your Skit. Create a 5-minute Improvisational Skit about the Cause-and-Effect relationship between two unrelated News Stories. Have all your plans suddenly become totally discombobulated by a One-Minute Glitch (OMG)!
