

WHAT'S THAT?

Challenge: Your TASK is to use the materials to create the word on a card provided during your build time.

Time: You will have up to 6 minutes to use your IMAGINATION to use the materials to create the words given to you at the beginning of your time. Before the end of your 6 minutes, you must place the card with the word in front of your creation so the judges know what your creation represents. At the end of your 6 minutes, you must stop and let the judges look at each creation. You may talk during the 6 minute build time, but afterwards, you must all remain silent.

The Scene: You have been hired to create sculptures for the DI ACME Company, but they have had budget cuts, so they can only provide you with a limited number of items to use in making your creations. You will be given three cards with words on them. You are to make creations for each word using the materials provided so when someone looks at your creation, they can guess what the word is. For example, if one of the cards said "butterfly", you would use the materials to make a creation that looks like a butterfly. Remember to place the card with the word on it in front of each creation so each is identifiable. You must complete all three creations and have them on the table within the 6 minute time period.

Procedure:

- Part One (6 minutes): There is a table with materials on it and a table for presenting your creations. During this 6 minutes, build creations for all three words and display them on the table provided. You will be given the three cards with words on them at the beginning of the 6 minutes.
- Part Two: At the end of the 6 minutes, the judges will say "Stop" and you must put stop and step away from the table. The judges will then review your creations. You cannot talk during this part.

Materials:

Four paper clips

Four marbles

Four note cards

One paper bag

Four rubber bands

Four cotton balls

One piece of string

Six colored blocks

Four pipe cleaners

One sheet of tin foil

One plastic cup

Five toothpicks

Scissors are provided but should not be used in your solution.

Scoring: You will receive up to:

20 points (60 points maximum) for how creatively you use the materials for each word

12 points if you used at least one of all the materials provided

1 point for each card placed in front of creations (3 points maximum)

25 points for how well your team works together

FOR TEAM MANAGER:

Suggested words for placing on individual index cards. It may be wise to start with the "easy" words, then move onto the "hard" list.

EASY LIST

Light
Mug
Calculator
Clock
Lighthouse
Whale
Lightening
Island
Ruler
Arrow
Hot Dog
Slide
Car
Shark
See Saw
Candle
Snail

HARD LIST

Laugh
Farmer
Hunt
Itch
Laptop
Laundry
Microwave
North Pole
Scary
Beach
Forest
Shower
Statue
Vacuum Cleaner
Windmill
Fast
Windy
